The total marks will be comprised of the following 3 parts;

Part 1: There will be 2 major exams. One is after 7 weeks of class and another will be after 15 weeks of class. The exams will be termed as Mid Semester and Final Semester examinations. 25% of the total marks and 2 weeks will be allocated for Mid Semester examination. It will be taken in a written format. 35% of the total marks and 3 weeks will be allocated for Final Semester examination. There will be 2 parts in the Final Semester examination. First part will be a written examination and the second part will be a viva. Marks allocation for the written part will be 25% while 10% marks will be allocated for viva. Time allocation for written and viva part will be 3 weeks. Therefore, Mid and Final examination contains 25% and 35%, respectively, accounting 60% of the total marks. The contents of Mid Semester examination will not be repeated in Final Semester examination.

Part 2: There will be a continuous evaluation consisting of at least 4 quizzes/assignments/viva taken throughout the semester each of these contains 10% of the total marks. Best 3 of them will be selected. Therefore, the total allocated marks for continuous evaluation becomes $(10+10+10) = 30\%$.
